André Luiz da Silva

Software Engineer

✉ jobs@andresilva.cc   📞 +55 47 99900-1415   🌐 andresilva.cc   ⌨ github.com/andresilva-cc

Software engineer with 8+ years of experience building web platforms, internal tools, and developer tooling. Works end-to-end — from architecture and infrastructure to product features and integrations. Primarily works with TypeScript, Vue.js, Nuxt, React, and Node.js. Takes ownership of solutions while collaborating effectively with teams, quickly adapting to new technologies and challenges. Holds a BS in Computer Science and a specialization certificate in Technical Leadership.

Experience

Senior Engineer @ Healthy Labs

Apr 2025 – Present

– Developed a multi-agent AI assistant for internal CMS operations and workflows
– Built a preview orchestration server using WebSockets and Docker for instant CMS previews
– Built core modules of an in-browser devtools panel
– Implemented lead compliance integrations (TrustedForm, Jornaya)

Senior Front-end Engineer @ Atlas Technologies

Jan 2024 – Apr 2025

– Worked on performance and DX improvements as part of the platform team
– Upgraded projects to Vue 3 and Nuxt 3
– Migrated pages to a Nuxt 3 project
– Achieved a 74% increase in the performance of a key page
– Improved logging in a Nuxt 3 project for better observability and DX

Front-end Engineering Consultant @ Atlas Technologies

Mar 2022 – Jan 2024

– Mentored and provided technical guidance to front-end engineers
– Analyzed and developed project improvements
– Contributed to the development of a component library using Lerna, TypeScript, and Vue.js
– Contributed to the migration of key pages to a Nuxt project

Front-end Engineer @ Atlas Technologies

Nov 2021 – Mar 2022

– Contributed to the development of a security feature for a platform with over 20M monthly visits
– Deployed and monitored front-end tasks in production
– Contributed with code reviews across multiple teams
– Tracked and organized tasks in Jira using Scrum

CEO & Co-Founder @ Nuxstep

Jun 2018 – Oct 2021

– Planned, developed, and deployed web and mobile applications
– Contributed to the execution of IT infrastructure projects
– Developed a NativeScript plugin integrating Spotify's SDK using TypeScript

Software Development Intern @ Gmaes Telecom

Mar 2017 – Dec 2018

– Developed an inventory system for the City Hall of Francisco Beltrão using Vue.js and Laravel
– Developed the new website for the Federal Council of Engineering and Agronomy (CONFEA) using Drupal
– Developed an integration between Nuvemshop and SkyHub using Nuxt and Node.js
– Deployed and managed applications on Linux and Windows servers

Education

Full Cycle

Apr 2024 – Feb 2025

Specialization Certificate in Technical Leadership

UNIVALI - Universidade do Vale do Itajaí

2015 – 2019

Bachelor Degree in Computer Science

Technologies
